

Kinnove

Redefining innovation

Automatic digital announcement system With timer

UB 301A

Made in India with engineers from Bulgaria and france

Salient features

Inbuilt high quality mp3 player

Micro SD card up to 32 GB with maximum 255 mp3 audio files supported

20 watt class D inbuilt amplifier for crisp and clear 1000ft. audio range

WiFi(2.4ghz) connected (with inbuilt Hotspot), no cables/buttons/display required

Easy interface through the web app on WiFi enabled smartphone or laptop/desktop

Smart communication for IP broadcast through sound for smartphone connectivity

Unlimited alarms/triggers settings for each day

Flexible duration for alarms/triggers(ex - 5 seconds or 36000 seconds)

Unlimited virtual days with all 7 weekdays to be used in special cases(exams, events)

Implement a special schedule for specific dates irrespective of weekdays

Disable alarms/triggers for specific dates considering holidays.

Bulk uploading of holidays dates to disable the device

Export and import settings for quick remote configuration and backup

Pre configured URL for one click import/remote configuration for non-tech users

Password protected secure updation of settings

Daily automatic time correction/sync from the WiFi internet

12V 3A/5A standard SMPS power supply adapter

Multiple horn speakers can be connected to output with volume adjustment

Auto resume in case of power supply interruption

Very compact, sturdy, portable design and high temperature tolerance

Salient features

Minimal power consumption with smart sleep feature

Standard 3.5mm audio jack for external amplifier connection or mobile phone aux connection to play songs or make audio announcements

Some most used pre-loaded audio files with pre-installed SD card

Wall mounted, fit and forget installation

Splash proof and light rain tolerant

Made in India heavy duty industrial grade product. 100% repairable with expected working life of more than 10 year in suitable conditions

Finally, you don't even need to learn its operating, just call us and we will update your device remotely. 😊

Customization

Default amplifier power is 20W.

1. High power amplifier 60W
2. 2 in 1 machine for adjacent buildings with separate schedule
3. High power relay control for external amplifiers of current rating above 10A

Box contents

1. Device - one
2. 12V 5A SMPS DC supply - one
3. Micro SD card - one (4 or 8 GB)
4. Screws and wall plugs/gitti for wall mount - two

One year warranty and next year free repair
